Exactly what I was looking for!

Exactly what I was looking for! The stickers will be used for RV registration purposes for a 600 acre campground. They are of great quality and will make it very convenient to identify the RV's being stored on the campground.

RE: DDC 3.6.3 Legislative Amendment discussion

REQUEST

Does the City want to initiate a text amendment to revise the current language in Chapter 3.6.3 to restrict the number of RV's permitted within the City throughout the year.

BACKGROUND

Beginning in January 2022, MWVCOG staff began work with the Detroit Planning Commission on a comprehensive update to the Detroit Development Code. This work is being funded by a DLCD grant. The date of completion of this work is slated for Spring 2023.

During the Technical Advisory Committee meetings and Joint work sessions with City Council and Planning Commission, the need to address RV use in the City separately and sooner than the completion of this project was needed. During the joint work session, it was the consensus of the group that the current standards are not appropriate for the community and the recommendation is to allow for one RV to be parked for human occupancy throughout the year, without a permit being required. Any additional RV's might be permitted if a property owner obtains the appropriate approval. The appropriate approval would likely be a conditional use for an RV park.

The City currently permits 2 RV's on RS and RM zones meeting specific development standards and the code allows 2 additional RV's to be parked on a property if a permit issued by the City recorder. There are no additional standards regarding having additional RV's except that two (2) City Councilors must approve the permit.

ACTION NEEDED

- a. Initiate a text amendment to DDC 3.6.3. and have a hearing scheduled in February 2023 for the particular section of the Code.
